

HIGH PERFORMING TEAMS

A T T U N E M E N T

The program was designed to help intact work teams expand their awareness about the four stages of team development. The program is ideal for teams that are struggling to reach their full potential.

Working collaboratively, team members determine their current stage of development and co-create a plan to enhance their effectiveness focusing specifically on the Seven Characteristics of a High Performing Team.

Through a process of self-discovery the team becomes inspired to take responsibility for driving results and engagement while working towards a future state where team leadership is shared, and the strengths of team members are honored and celebrated.

Following the session, team members will:

- Understand the four stages of team development
- Be able to describe the characteristics of a high performing team with a shared understanding of the team's current strengths and development opportunities
- Be prepared to navigate the barriers to becoming a high performing team through the co-creation of specific goals and strategies that impede their effectiveness
- Feel engaged and committed to move towards a model of shared leadership that provides opportunities for each team member to shine and harness the power of each team members unique gifts and talents
- Feel a greater sense of cohesion trust, commitment, and understanding to the team and its contribution to the larger organization
