

# LEADERSHIP

## A T T U N E M E N T

Leadership Attunement is for leaders desiring a comprehensive understanding of their present leadership capability. Whether looking to enhance current effectiveness or prepare for additional responsibility, receiving 360 feedback is the most powerful learning experience. It confirms leadership assets and uncovers hidden strengths, blind spots, career stallers and stoppers.

Upon completion, Leaders have clarity on their capability enabling them to explore, identify, and act upon the issues most relevant to their goals and ambitions.

The process is facilitated by a professional coach that guides the leader's discovery of new awareness, strengthens self-trust, expands choice, and supports taking action.

### Leadership Attunement Benefits:

- Comprehensive feedback using KornFerry's signature VOICES Instrument that is anchored in decades of leadership research and understanding
- Insight into personal capability and opportunity across 38 leadership success competencies organized by Thinking, Results, People, and Self Leadership
- Capability contrasts to leaders in thousands of other organizations
- Peace of mind that accompanies confirmation of strength and clarity of development priorities

### Support:

- A professional coach that utilizes the latest concepts in neuroscience and behavioral change to guide discovery and support action taking
- Co-creation of a laser focused development plan
- Access to a private, self-directed learning portal to organize priorities, put learning into action, and create an ongoing support community (sponsors, managers, mentors, coaches)
